As the only U.S. professional preservation organization with a global focus, US/ICOMOS is the gateway for U.S. professionals to participate in worldwide heritage conservation. With over 700 members, US/ICOMOS promotes strong ties between national, regional, private, and governmental organizations within the U.S. and the international preservation community.

US/ICOMOS guides and promotes activities through an extensive membership network of preservation professionals, institutions, and organizations, including specialized scientific committees. US/ICOMOS also organizes an annual international scientific symposium, an international intern exchange program, and occasional special training courses and workshops.
